

Global Industries FZC

High-Performance Dewatering Solutions & Pump Services

January 2026 | Company Profile

Phone: 800-PUMPRENT (78677368)
Email: info@global-industries.group

The Local Experts with Global Capability

Founded in 2006, Global Industries FZC is a UAE-based specialist in rental, sales, and service. We focus on providing high-quality dewatering solutions-including submersible and surface-mounted centrifugal pumps for the region's most demanding sectors.

We combine modern equipment, responsive service, and strict safety practices to minimize downtime, solve complex water challenges, and keep projects on schedule.

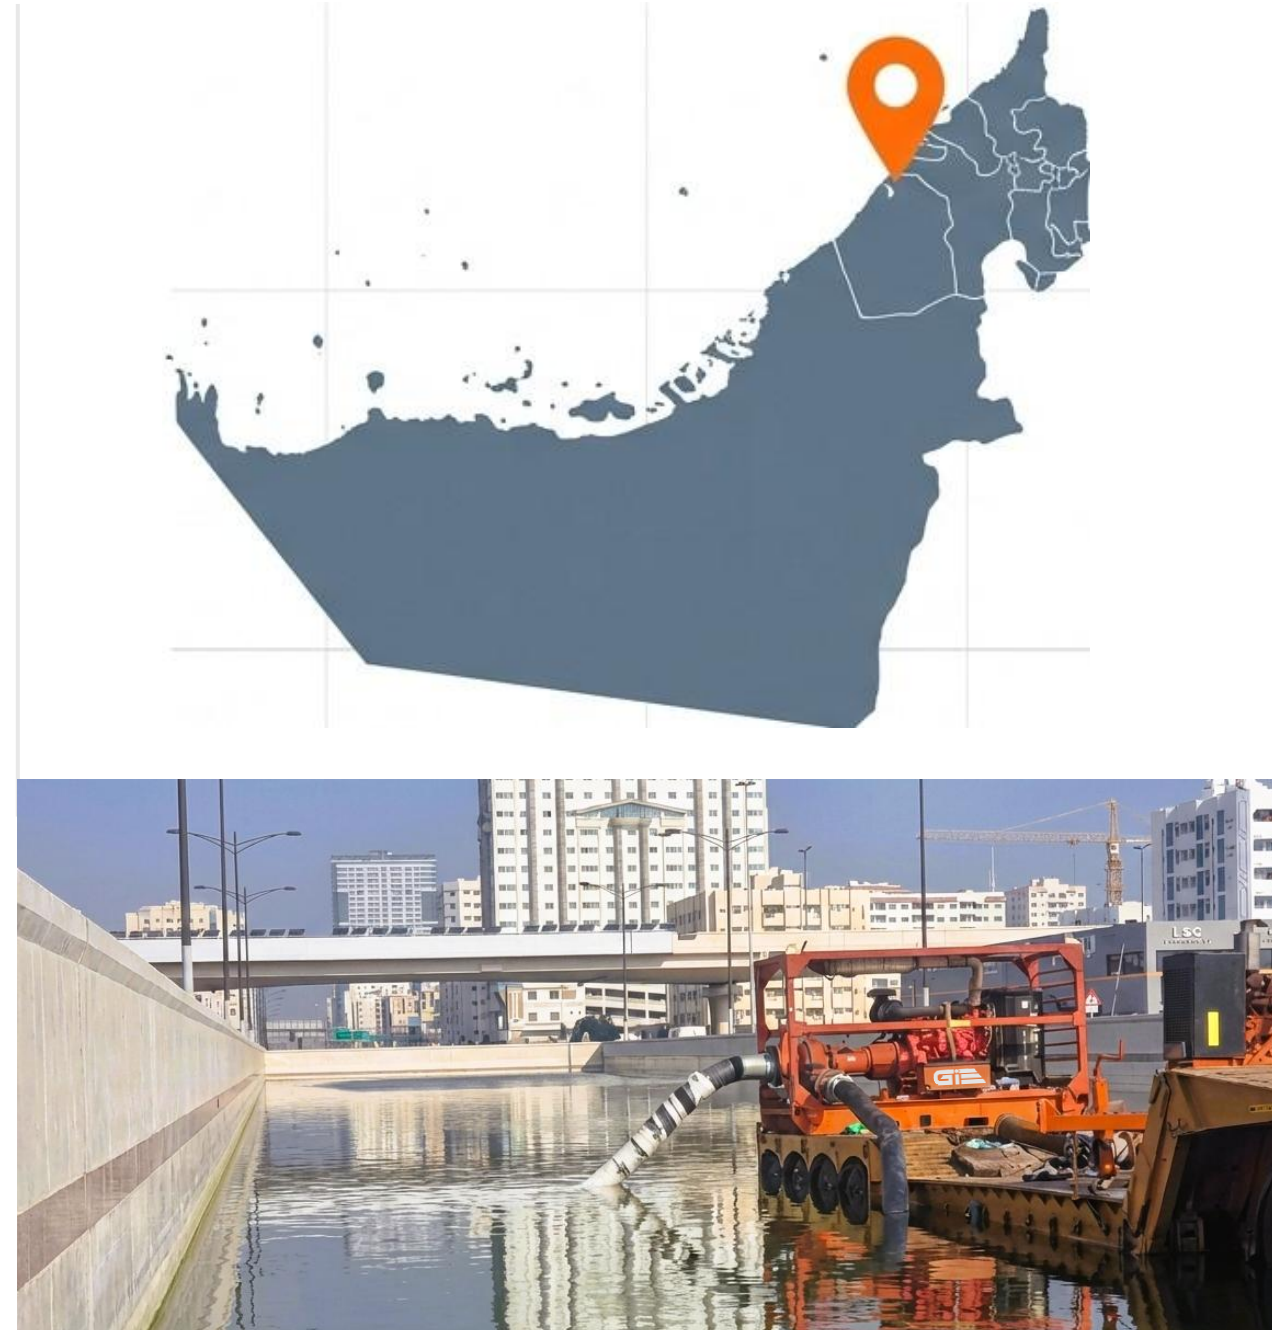

Key Facts

Established: 2006

Location: Hamriyah Free Zone, Sharjah, UAE

Scope: Specialist Sales & 24/7 Rental & Service Provider

Coverage: GCC and Levant

Leadership Powered by Industry Heritage

Decades of specialized experience in dewatering and fluid management

Marco Vallarino
Managing Director

Senior level management executive with over 30 years' experience in the offshore/ logistics, oil and gas industry with extensive hands-on experience in Nigeria/West Africa

William Gilmore
General Manager

Brings 12+ years experience, including tenure as the Global Product Manager for Godwin (Xylem Dewatering pumps), covering Europe, Africa, the Middle East & Asia

Vineeth Sadanandan
Operations Manager

An Ex-Xylem veteran with over 20 years in the Middle East region, including 8 years specifically managing Xylem's Middle East rental operations.

Driven by Safety, Reliability & Integrity

Mission

To provide reliable, efficient and safe dewatering solutions that enable our customers to solve their water challenges on time and on budget.

Vision

To be the UAE's partner of choice for dewatering services by delivering technically sound equipment, rapid response support, and measurable value on every job.

Safety First:
Zero-compromise approach to personnel and site safety.

Reliability:
Dependable equipment and on-time delivery.

Responsiveness:
Fast technical support and rapid mobilization.

Integrity:
Transparent pricing, honest communication and fair practices.

Sustainability:
Efficient machines, reduced waste and power usage.

Delivering the World's Best Technology

We are authorized distributors for the industry leaders, bringing global engineering standards to your local site.

Godwin is a global leader in portable pump solutions, offering over 100 years of expertise in the design, manufacture, rental, and service of efficient and reliable pumps for dewatering, wastewater, and emergency applications across diverse industries.

Founded in Sweden in 1901, Flygt is the originator of the electrical submersible pump. Today Flygt customers have access to a complete range of products for moving water and wastewater, capable of handling everything from clean water to tough sludge and slurry applications.

Short and Long-term Pump Rentals

Flexible rental agreements for projects of any duration.

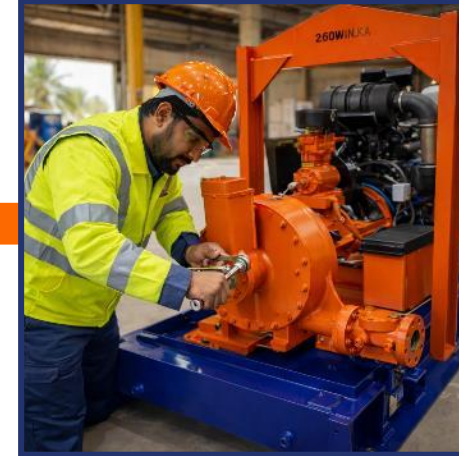

Pumps and Spare Parts Sales

Distribution of Godwin & Flygt – Xylem line of dewatering pumps and spare parts

Preventive Maintenance & 24/7 Breakdown Support

Scheduled servicing and emergency response teams to maintain uptime.

Pump Accessories & Consumables

Hoses, couplings, screens, valves, break tanks, fuel bowzers, and spares kits.

On-site Pumping Solutions Design

System sizing, selection and layout for optimal performance and cost-efficiency.

Installation, Commissioning & Decommissioning

Experienced crews handle setup and safe removal.

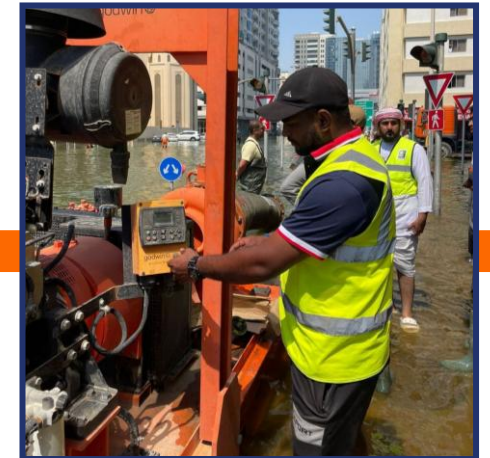

Pump Monitoring & Optimization

Flow and pressure monitoring solutions and recommendations to improve system efficiency.

Hiring of Skilled Operators

Trained pump operators and technicians available on request.

Blasting & Painting Services

We offer professional blasting and painting services for a variety of products and industries.

Storage Services

Our 10,000 sq. m facility provides ample space for short or long term storage needs, both open and covered.

Pump Overhaul & Refurbishment

Expert technicians with decades of experience and OEM training in pump disassembly, assembly and overhaul.

Fabrication Services

We provide a broad range of metal fabrication services to meet the diverse needs of our clients.

Maintenance Contracts

Cost-effective service level agreements to enhance operational reliability through PM of your equipment

Inspection & Auditing

Minimize downtime and maximize profitability with regular inspections by our qualified service engineers.

Pump Health Check and Reporting

Monitor your pumping equipment's health and provide recommendations to keep it running optimally.

Training & Technical Support

Our Engineers can provide product, application & operations training, in the classroom or in the field.

Vertical Markets & Applications

Municipal

- Sewer bypass
- Clean water bypass
- Pump lift station back-up
- Digester cleaning & sludge removal
- Emergency drainage of floodwaters
- Treatment plant refurbishment
- Contingency plans/ site audits

Mining & Quarrying

- Open Pit & Underground drainage
- Process water supply & transfer
- Face & stage dewatering
- Dust suppression
- Water treatment
- Temporary water supply
- Slurry/ tailings removal

Industrial

- Wastewater bypass
- Temporary fire pumps
- Raw water supply
- Process pumping
- Flood control
- Over pumping
- Dust suppression
- Treatment
- Slurry pumping
- Cooling media
- Power generation
- Contingency plans/ site audits

Construction & Tunnelling

- Site drainage
- Groundwater control
- Sea water drainage
- Wellpoint dewatering
- Drill rig water supply
- Dust suppression
- Temporary water supply
- Slurry Pumping
- HVAC district cooling flushing

Oil & Gas

- Tank cleaning
- Temporary fire pumps
- Raw water supply for hydraulic fracturing
- Product transfer
- Pipeline pigging
- Pressure/ line testing
- Process pumping
- Crude oil/ lube oil transfer
- Cooling media
- Contingency plans/ site audits

Marine & Offshore

- Barge Ballasting
- Sea water drainage
- Jetting
- Cable trenching
- Drydock pumping
- Off-shore Dredging
- Cooling media
- Marine line pigging

Rental Equipment Fleet (Representative)

Flygt (Xylem) Electric Submersible Drainage Pumps: 2"—8" sizes for clear and contaminated water. Submersible slurry pumps for liquids with high solids concentration.

Wellpoints & Booster Sets: For rapid groundwater lowering in shallow aquifers with a high air to water ratio.

Godwin (Xylem) Diesel-driven Centrifugal Pumps: High-head (HL-Series) and high-capacity (CD-Series) models for heavy-duty dewatering.

Generators & Light Towers: For remote locations and uninterrupted operation. Lighting towers for high powered nighttime illumination.

Godwin (Xylem) Hydraulic Submersible Dewatering Pumps: For suction lift applications exceeding 8.5m we have hydraulic submersible pumps driven by stand-alone diesel driven hydraulic powerpacks.

Hoses, Strainers & Fittings: Durable suction and discharge lines, quick couplings, valves & fittings.

Note: fleet composition is customizable to project needs — exact models, capacities and quantities available upon request.

Rental Pumps

Godwin HL160M Diesel Driven, Automatic Self-priming Pump
Flow up to 486m³/h and head to 187m

Godwin NC150 Diesel Driven, Automatic Self-priming Pump
Flow up to 403m³/h and head to 58m

Godwin DPC300 Diesel Driven, Automatic Self-priming Pump
Flow up to 1154m³/h and head to 33m

Godwin HL125M Diesel Driven, Automatic Self-priming Pump
Flow up to 300m³/h and head to 134m

Godwin HL150M Diesel Driven, Automatic Self-priming Pump
Flow up to 374m³/h and head to 148m

Godwin MPD150 Diesel Driven, Multistage Pump
Flow up to 597m³/h and head to 410m

Godwin HL110M Diesel Driven, Automatic Self-priming Pump
Flow up to 114m³/h and head to 187m

Godwin GHPU30 hydraulic Submersible Pump
Flow up to 422m³/h and head to 20m

Godwin HL250M Diesel Driven, Automatic Self-priming Pump
Flow up to 1224m³/h and head to 127m

Note: fleet composition is customizable to project needs — exact models, capacities and quantities available upon request.

Rental Pumps & Ancillary Equipment

Flygt BS2250 Electric Submersible Drainage Pump
For construction & mine site dewatering

Hoses & accessories
A broad selection of hoses and fittings of various sizes
From 2" to 24"

Generac VT-Hybrid Lighting Tower for high powered nighttime illumination

Flygt 5520 Electric Submersible Slurry Pump
For high wear abrasion and solids concentrations

Break Tanks, 10ft, 20ft, 40ft,
Capacity from 13m3 to 67m3

Western 3000L Bunded Fuel Cube

Godwin Heidra 150V Hydraulic Submersible Pump
Flow up to 422m3/h and head to 20m

Godwin CD150MV Diesel Driven, Automatic Self-priming Pump

Filter Units – 12 & 23 bag

Note: fleet composition is customizable to project needs — exact models, capacities and quantities available upon request.

The Global Industries Advantage

Local Presence & Rapid Mobilization:

UAE-based warehouses and logistics ensure reduced delivery lead times and immediate response.

Technical Expertise:

We provide pump selection and system design from experienced engineers and field technicians.

Flexible Commercials:

Tailored rental periods (daily, weekly, monthly), bundled service packages and transparent pricing.

Safety & Compliance:

All work practices are strictly aligned with UAE health, safety and environmental standards.

Operational Excellence & Quality Assurance

We don't guess, we test.

Quality Assurance

- Comprehensive routine maintenance records and service logs for each asset.
- Calibration and performance testing of pumps prior to mobilisation.
- Continuous improvement via feedback from site teams and clients.
- ISO Certification: We are ISO 9001, 14001 and 45001 Certified.

Pricing & Contracting

- Transparent pricing models: daily, weekly, monthly and project-based rates.
- Rental agreements can include supply-only, supply + operator, and full-service packages with installation, maintenance and monitoring.
- Volume discounts and long-term contract terms available.

Your Project Workflow

- 1. Enquiry & Site Assessment:** Provide site details (drawings, photos, duty requirements).
- 2. Proposal & System Design:** We size pumps, specify accessories and present a clear commercial offer.
- 3. Mobilise & Install:** Equipment is delivered, installed and commissioned by our team.
- 4. Operate & Maintain:** Regular inspections, remote monitoring (if requested) and fast troubleshooting.
- 5. Demobilise & Report:** On completion we remove equipment and provide a handover report.

Certifications & Compliance

The company carries ISO 9001, 14001 and 45001 Certification

Certificate of Registration

This is to certify that the Quality Management System of

Global Industries FZC

Phase 1, Plot 2L-06-07, Hamriyah Freezone, Sharjah - United Arab Emirates

is in accordance with the requirements of the following standard

ISO 9001:2015

(Quality Management System)

SCOPE

Trading of heavy equipment & machinery, heavy equipment & machinery spare parts, industrial machinery & spare parts trading, pumps, motors and valves and outfit trading, oilfield & natural gas equipment & spare parts trading

(IAF Code: 29)

Certificate Number : SCK/01/GIF/26/97/8402

Initial Registration Date : 18-Jun-2026
1st Surveillance Date : 18-May-2027
2nd Surveillance Date : 18-May-2028
Certificate Expiry Date : 17-Jun-2029
